

# Challenge 1

## Superhero

Create your very own cartoon superhero who is fighting against the sustainability issue you have chosen to tackle.

### Top Tips

- Your superhero must be someone/thing who is fighting the sustainability issue you have chosen to tackle.
- Superheroes come in all shapes, sizes and genders. Some are not even human at all! The superpowers you choose might even help you decide what your superhero looks like.
- Make sure the colours, style, and accessories are all appropriate to both the character's powers and your team image - can you use your logo in the design?
- You may be inspired by existing superheroes, but remember the aim is to create something original.
- Make sure you label your picture to give all the information about their outfit/accessories/powers/purpose.
- If you're feeling extra adventurous you could write a short story or comic book page about your superhero.
